

## **Art scheme of work (from Sep 2020)**

**Christian values underpinning learning -** Love, respect, determination, creation, creativity and peace

### **Intent**

The National Curriculum (2014) forms the basis for all subject teaching ensuring continuity and progression in an age related curriculum. In addition, teachers make sure the content is relevant and stimulating by delivering through themes and topics.

Our art curriculum has been developed because we believe that:

- Art allows children to express their feelings and ideas, both as a means of self-expression and to communicate to others.
- Art can build confidence as well as a sense of individual identity.
- Art allows children to explore, build on and record their own creative and imaginative ideas.
- Art helps to develop critical thinking and the ability to interpret the world around us.
- Art provides the opportunity for those with particular talent to excel.
- Art teaching helps children with the development of motor skills, language skills, social skills, decision-making, risk-taking and inventiveness.
- Art allows children to explore different media and experiment with techniques or strategies to see how they work.
- Art teaching provides opportunities for all children to experience and appreciate the works of a wide range of both historical and contemporary artists across a range of media.
- Art is a means through which children can explore different cultures.

### **Implementation**

Where possible art should link to the class topics. Children should have the opportunity to respond to a work by a wide variety of artists, both historical and contemporary. Children should experience working with the range of media set out in the curriculum. It is essential that staff plan to ensure that skills and techniques are taught and that a progression of skills is evident across year groups. Planning should also provide opportunities for children to evaluate, exhibit, and share their art work.

## **Impact**

Long term:

- That children will be able express their feelings and ideas.
- That children will develop confidence and a sense of individual identity.
- That children develop critical thinking and the ability to interpret the world around us.
- That some children will be able to excel and develop their talent to a high standard.
- That children will develop a greater knowledge and understanding of other cultures through art.

Assessment in DT:

- Pupil voice – to check understanding, understanding of key techniques, progression, confidence in discussing Art
- Display and books – opportunity to practise skills, varied and engaging curriculum, showcased final pieces, clear progression in skills
- Feedback from parents and guests who attend show case events and exhibitions

Role of the co-ordinator:

- Highlight / Celebrate successes
- Collate appropriate evidence over time – this should show that pupils' skills and understanding develop over time
- Monitor the standards in the subject to ensure that outcomes are at expected levels
- Provide ongoing support to colleagues
